#### **Review of Operating Results:**

The Company achieved net sales of Rs.17.7 billion during this period amidst a volatile and challenging economic environment. The total Net sales also comprised intercompany sales of Rs. 2.4 billion to GlaxoSmithKline Consumer Healthcare Pakistan Limited on account of products manufactured by the Company, pending transfer of market authorization. The pharmaceutical business reflected a growth of 1.3% compared to same period last year. Although trade sales growth during the period was 5% due to economic slow-down, the overall sales growth was diluted due to lower tender sales.

Gross profit for the half year under review was at 20.5%, a decline of 5.5%. Our margins also remained under pressure due to continuing devaluation of the Rupee, rising utilities costs and higher inflation. During this period, some industry-wide price increases were given, which however were insufficient to cover the rising costs. The Company is continuously focusing to drive cost efficiencies in our manufacturing operations and by optimizing spend.

Selling, marketing and distribution expenses were recorded at Rs.1.7 billion, expenses under this head remained well controlled. Administrative expenses were recorded at Rs.0.6 billion; an increase of 8% which mainly reflects general inflation.

Other income totaled Rs. 638 million, an increase of Rs. 406 million from last year, mainly comprising of promotional allowance. Financial charges in this period totaled Rs. 303 million. The increase under this head was mainly due to exchange loss on account of further devaluation over this period as compared to last year and running finance charges booked over this time.

The running finance facility was required as the Company increased its inventory levels to cover the planned plant shut down period for SAP implementation at the manufacturing

Overall, your Company posted an after-tax net profit of Rs. 875 million, a decline of 33% over the corresponding period last year mainly impacted by the slow business environment, Rupee devaluation and rising inflation.

Capital expenditure of Rs. 575 million was incurred during the current period (June 30, 2018: Rs. 464 million). During this period, the Company invested on plant up-gradation, capacity enhancement initiatives and ongoing consolidation of operations.

#### **Outlook and Challenges:**

The global Company has high expectations from GSK Pakistan as one of the key markets within the Emerging Markets region. The management of the Company is fully committed to deliver to that expectations. However, the current economic scenario and the resulting business uncertainty poses a major challenge in the delivery.

Various agencies and international analysts forecasts a further slow down of the economy during the remaining part of the year as a result of the macroeconomic interventions that the country is going through. During the remaining part of the year, the full impact of devaluation will pose further challenges to the cost of doing business. Also, any further devaluation will greatly aggravate the situation.

Although the new Drug Pricing Policy notified in 2018 has provisions for pricing reviews to meet such exceptional situations such as extraordinary devaluation, there seems to be very little appetite from the regulators to provide the necessary relief. While we understand the challenge on the buying power of the general population, there is a need to strike a balance with affordability and emerging risk to business sustainability.

### Remuneration Policy of GSK Pakistan Limited for Non-Executive Board Directors:

The Non-Executive Board Directors of GlaxoSmithKline Pakistan Limited are entitled to a remuneration approved by the HR and Remunerations Committee, based on market benchmark of the Pharma Industry and other similar style of business.

#### Acknowledgment:

On behalf of the Board I would like to place on record our appreciation for great commitment and passion demonstrated by the staff for the achievement of Company's objectives in this period.

### INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF GLAXOSMITHKLINE PAKISTAN LIMITED

#### Report on review of Interim Financial Statements

#### Introduction

We have reviewed the accompanying condensed interim statement of financial position of GlaxoSmithKline Pakistan Limited as at June 30, 2019 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of changes in equity, and condensed interim statement of cash flows, and notes to the financial statements for the half year then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of this interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these financial statements based on our review.

#### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements is not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

#### Other Matter

The figures for the quarters ended June 30, 2019 and 2018 in the condensed interim profit or loss and other comprehensive income have not been reviewed and we do not express a conclusion on them as we are required to review only the cumulative figures for the half year ended June 30, 2019.

The engagement partner on the review resulting in this independent auditor's review report is Nadeem Yousuf Adil.

2.1 The disclosures made in these condensed interim financial statements have, however, been limited based on the requirements of IAS 34. These condensed interim financial statements do not include all the information and disclosures required in a full set of financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended December 31, 2018.

#### 3. ACCOUNTING POLICIES

#### 3.1 Significant accounting policies

- **3.1.1** The significant accounting policies and the methods of computation adopted in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the annual audited financial statements of the Company for the year ended December 31, 2018, except for the changes in accounting policies as stated in note 3.1.4 below.
- 3.1.2 Taxes on income are accrued using the average tax rate that is expected to be applicable to the full financial year.
- **3.1.3** Actuarial valuations are carried out on annual basis. The last actuarial valuation was carried out on December 31, 2018, therefore, no impact of actuarial gain / loss has been calculated for the current period and comparative condensed financial statements has also not been adjusted for the same reason.

### 3.1.4 Standards, interpretations and amendments to published approved accounting standards that became effective during the year

Certain amendments and interpretations became effective that are mandatory for accounting periods beginning on or after January 1, 2019. However, these are not relevant for the Company's financial statements except for the following amendment which have not materially impacted the financial reporting of the Company:

For the Half year ended June 30, 2019 (Un-Audited)

#### (a) IFRS 16 - Leases

The Company has adopted IFRS 16 by applying the modified retrospective approach according to which the Company is not required to restate the prior year results.

On adoption of IFRS 16, the Company recognised lease liabilities in relation to leases which had previously been classified as 'operating lease' under the principles of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of January 01, 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on January 01, 2019 was 12.41%. Subsequently, lease payments made are allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

#### The total lease liability recognised was as follows:

	June 30,	January 01,
Rupees '000	2019	2019
Long term portion of lease liabilities  Current portion of lease liabilities	(37,483) (18,360)	(30,907) (4,873)
	(55,843)	(35,780)

The right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position as at December 31, 2018. Subsequently, the right of use assets is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

#### The total right-of-use assets recognised was as follows:

	Jun	e 30,	January 01,
Rupees '000		2019	2019
Right of use assets	59	,380	42,620

Net change in net assets and impact on condensed interim statement of profit or loss and other comprehensive income were assessed to be immaterial to the condensed interim financial statement.

#### 3.2 Financial risk management

The Company's financial risk management objective and policies are consistent with those disclosed in the annual audited financial statements of the Company for the year ended December 31, 2018.

#### 3.3 Fair value of financial assets and liabilities

The carrying value of financial assets and financial liabilities reported in these condensed interim financial statements approximates their fair values.

#### 3.4 Estimates and judgments

Estimates and judgments made by management in the preparation of these condensed interim financial statements are same as those applied in the preparation of the annual audited financial statements of the Company for the year ended December 31, 2018.

#### 11. CONTINGENCIES AND COMMITMENTS

- **11.1** Following is the change in the status of contingencies as reported in the financial statements for the year ended December 31, 2018:
  - (i) As a result of monitoring proceedings of withholding taxes for Financial Year 2016 (Tax Year 2017), Assistant Commissioner Inland Revenue has issued Order under section 161/205 of the Income Tax Ordinance, 2001 (Ordinance) raising demand of Rs. 38.75 million on certain sales promotion expenses alleging that withholding tax rate of 20% must be applied on such expenses under section 156 of the Ordinance. The Company filed an appeal against the said Order before Commissioner Inland Revenue (Appeals) which was decided in favor of the Company. The Department has filed an appeal against the Order before the Tribunal, which is due for hearing.

The management is confident that the ultimate decision in the above cases will be in favor of the Company, hence no provision has been recognised in respect of the aforementioned additional tax demands.

**11.2** Commitments for capital expenditure outstanding as at June 30, 2019, amounted to Rs. 964.68 million (December 31, 2018: Rs. 205.18 million).

#### 20. FAIR VALUE MEASUREMENTS

IFRS 13 "Fair Value Measurement" defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The carrying amounts of all the financial instruments reflected in these financial statements approximate their fair value. IFRS 13 requires categorization of fair value measurements into different levels of fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The Company does not have any financial assets and liabilities measured at fair value. The carrying values of all the financial assets and financial liabilities reported in the balance sheet approximate their fair values.

#### 21. DATE OF AUTHORISATION FOR ISSUE
